Description *The Digital Design Certificate provides an excellent educational foundation for students interested in the fields of architecture, industrial design, toy design, furniture design, interior design, landscape architecture, set design, and virtual reality environment. It is also an ideal certificate for professionals seeking to transfer their existing design knowledge into a digital form. The skills developed in this program include 3D prototyping, visualization, conceptualization, 3D composition, lighting, proportion, sketching and modeling. Applications employed are 3D Studio, Microstation Modeler, Access, Triforma, Autocad, Microstation CAD and GIS, among others. Students will be exposed to a number of technological applications, include database management, spatial modeling, intelligent objects, CAD, information systems and Windows operating systems. In addition, they will develop organizational skills in time management, teamwork, communication, and digital file management.*

Description *The Small Manufacturers Association (SMA) of California was established in 1991 to champion the interests of the businesses that make up California's industrial backbone. After many years of deterioration in the state's manufacturing climate, we are committed to improving regulation, vocational priorities, profitability, and public pride in a strong manufacturing base.*
