Los Angeles County Economic Development Corporation
The Kyser Center for Economic Research Team:

Jack Kyser
Founding Economist

Nancy D. Sidhu, Ph.D.
Chief Economist

Kimberly Ritter
Associate Economist

Ferdinando Guerra
Associate Economist

The LAEDC, the region's premiere business leadership organization, is a private, non-profit 501(c)3 organization established in 1981.

Our mission is to attract, retain, and grow business and jobs in Los Angeles County. Since 1996, the LAEDC has helped retain or attract more than 157,000 jobs, providing \$7.5 billion in direct economic impact from salaries and \$134 million in annual tax revenue benefit to local governments and education in Los Angeles County. Visit www.laedc.org or call (888) 4-LAEDC-1.

Regional Leadership

The members of the LAEDC Board of Governors are civic leaders and ranking executives of the region's leading public and private organizations. Through financial support and direct participation in the mission, programs and public policy initiatives of the LAEDC, the board is committed to playing a decisive role in shaping the region's economic future.

Business Services

The LAEDC's Business Development and Assistance Program provides essential services to local businesses at no cost, including coordinating site searches, securing incentives and permits, identifying traditional and non-traditional financing including industrial development bonds. LAEDC also works with workforce training, transportation and utility providers.

Economic Information

Through our public information and for-fee research, LAEDC and the Kyser Center for Economic Research provide critical economic analysis to business decision-makers, media and government. We publish a wide variety of industry-focused and regional analyses, and our Economic Forecast has been ranked #1 by the Wall Street Journal.

Economic Consulting

LAEDC offers custom research with expertise in transportation, the environment, infrastructure, regional economic trends and regional industry analysis.

Global Connections

The mission of the World Trade Center Association LA-Long Beach (WTCA LA-LB) is to support the international business development of Southern California companies. WTCA LA-LB is the leading trade association and international clearing house for the Los Angeles region. WTCA membership includes nearly 300 sister WTCs in 100 countries. Over 750,000 companies are affiliated with WTCA members worldwide. The WTCA LA-Long Beach is a subsidiary of the Los Angeles County Economic Development Corporation. For more information, please visit www.wtca-lalb.org.

Introduction to the L.A. Stats, 2009 Edition

This is a collection of business and economic indicators for the Los Angeles five-county Area (Los Angeles, Orange, Riverside, San Bernardino, and Ventura counties) and in most instances our neighbor to the south -- San Diego County. A variety of private and public sources have been used in its preparation, and all tables have a citation as to the source.

Los Angeles County is one of 58 counties in the state of California, and has a land area of 4,084 square miles. This area is somewhat smaller than the state of Connecticut. The County contains 88 separate incorporated cities, as well as many unincorporated communities. The County has some unique geographic aspects: 70 miles of coast on the Pacific Ocean; a major mountain range (the San Gabriels), with one peak of 10,064 ft.; and part of the Mojave Desert in the northern portion of the County. The County lies on approximately the same latitude as Atlanta, Georgia, and Dallas, Texas.

Climate (annual averages) -- downtown Los Angeles

<i>Normal daily mean temperature</i>	<i>65.2 degrees F</i>
<i>Normal daily maximum temperature</i>	<i>74.3 degrees F</i>
<i>Normal daily minimum temperature</i>	<i>56.0 degrees F</i>
<i>Days of sunshine per year</i>	<i>266 days</i>
<i>Normal annual precipitation</i>	<i>14.9 inches</i>
<i>Snow & ice</i>	<i>Traces</i>

The LA County Business Scan contains in capsule format the latest economic information for Los Angeles County and can be viewed at <http://www.laedc.org/businessscan/index.html>

Clarifications & Notes on Changes

Census 2000 Data

Census 2000 data about Southern California are available free-of-charge from <http://laedc.org/reports/Census2000-LA5.pdf>

Civilian Labor Force Series vs. Industry Employment Series

The civilian labor force (CLF) data and the industry employment (IE) data both measure employment but are collected differently. The CLF data come from a **survey of households** in a given geographic area. The survey also reports the unemployment rate because it asks for the person's intention on job seeking if the person is currently not working. The survey does not distinguish between full-time and part-time workers, self-employed, and multiple job holders.

The IE data are collected by the California Employment Development Department (EDD) **at the place of employment**. These data are more often used as employment indicators because the reports contain considerable industry detail. Nonfarm employment, a major subset of the industry employment series, is the most commonly used employment indicator. Throughout this report IE data are referred to as "QCEW Series."

The two series can diverge for a variety of reasons, including multiple jobs per person, living and working in two different counties, and being self-employed. Thus they should not be compared directly with the purpose of inferring precise information from the divergence of the two series.

How to cite information from L.A. Stats

Nearly all the data in *L.A. Stats* come from sources other than the LAEDC. Please cite the data as they are cited in this book.

Section A: County Profiles

Los Angeles County Profile

- **Los Angeles County** (Los Angeles-Long Beach-Glendale Metro Division) covers 4,084 square miles, and had a July 1, 2009 population of 10,409,000 residents; an increase of 832,900 persons since 2000. The County's population would make it the eighth largest state in the nation, just behind Ohio and ahead of Michigan. (California Department of Finance)
- A quick **demographic profile** of Los Angeles County indicates that: 47.7% of the population is Hispanic, 28.7% white non-Hispanic, 13.0% Asian-Pacific Islander, 8.5% black; and 2.1% other races. About 75% of the population has a high school diploma, while 28% holds a bachelor's degree or more. (American Community Survey 2008)
- Los Angeles County has a diverse **economic base**. Measured by 2008 employment, the leading industry clusters are: 1.) tourism and hospitality with 458,000 workers; 2.) professional and business services with 268,000 workers; 3.) entertainment (motion picture/TV production, etc.) with 262,000 workers; 4.) wholesale distribution with 172,000 workers; and 5.) health services and biomedical with 153,000 employees.
- The "**new economy**" of Los Angeles County is largely technology driven. This sector includes bio-medical, digital information technology, and environmental technology, all of which build on the vibrant technical research capabilities in the County. Another key driver is creativity. There is a growing fusion between technology and creativity such as in video games and film production.
- Los Angeles is the largest **manufacturing center** in the U.S., employing 433,200 workers in 2008. The most important sectors are: apparel with 55,000 workers; computer & electronic products with 54,100 workers; transportation equipment with 50,500 workers; fabricated metal products with 48,900 workers; and food products with 41,900 workers.
- **International trade** is a major driver of the area's economy. The Los Angeles Customs District—which includes the ports of Long Beach and Los Angeles, Port Hueneme, and Los Angeles International Airport—is the nation's largest. The value of two-way trade passing through Los Angeles totaled \$355.8 billion in 2008, compared with \$353.4 billion for second-place New York. Major investments are under way to expand the ports, LAX airport and related transportation facilities in Los Angeles County.
- **Higher and specialized education** is a strength of Los Angeles County, with 112 four-year public and private colleges and universities. These range from UCLA, USC, California Institute of Technology, and the Claremont Colleges to top-rated specialized institutions like the Art Center College of Design, the California Institute for the Arts, the Fashion Institute of Design and Merchandising, and the Otis College of Art and Design. Medical education is also a strong point; Los Angeles has two each of medical schools, dental schools, and eye institutes, plus specialized research and treatment facilities like the City of Hope. In additions, the County's 33 community colleges offer many innovative programs, including culinary arts, fashion design, multimedia, and computer assisted design and manufacturing.
- Los Angeles County's **transportation** network is extensive. In addition to the ports and LAX airport, there are two other busy commercial airports (Bob Hope [in Burbank] and Long Beach). The freeway system is well-known. Less well known are the many mass transit options, including Amtrak, Metrolink (commuter heavy rail), and MetroRail (subway & light rail). The Burlington Northern Santa Fe and Union Pacific railroads provide excellent cross-country freight service.
- **Quality of life** options are numerous and varied in Los Angeles County. Recreation opportunities range from professional sports to personal recreation at beaches, marinas, and mountain resorts. The number of fine and performing arts activities is growing, as well as special festivals including the renowned Tournament of Roses. Notable landmarks include the Getty Center, Walt Disney Concert Hall, California Science Center and the Staples Center sports arena, and the Aquarium of the Pacific in Long Beach.

Orange County Profile

- **Orange County** (Santa Ana-Anaheim-Irvine Metro Division) covers 948 square miles, and had a July 1, 2009 population of 3,155,000; an increase of 292,000 since 2000. If Orange County were a state, it would rank 29th in the nation, behind Oklahoma and ahead of Connecticut. Within the state of California, Orange County ranks third behind the counties of Los Angeles and San Diego.
- A quick **demographic profile** of Orange County indicates that 46.0% of the population is white non-Hispanic, 33.8% is Hispanic, 16.4% is Asian-Pacific Islander, and 3.8% is black or other races. About 82% of the population has a high school diploma or more, while 35% has a bachelor's degree or more. (American Community Survey 2008)
- Orange County has a diverse **economic base**. In 2008, the leading industry clusters were: 1) tourism and hospitality with 198,000 workers; 2) professional and business services with 119,800 workers; 3) health services and biomedical with 113,900 workers; 4) wholesale distribution with 86,800 workers; and 5) technology with 78,100 workers.
- **Technology** is a vital force in the Orange County economy, with several centers of activity, including Irvine (around both the Spectrum and UC Irvine) and the mid-county area. Areas of emphasis include computer software (especially gaming software), semiconductors and biomedical applications.
- Orange County is a **major manufacturing center**. With 173,800 workers in 2008, the County ranked #4 in the nation, just behind Harris County, TX (Houston, with 186,000 workers) and ahead of Santa Clara County, CA (168,000 workers). The largest sectors were: computer & electronic products with 27,000 workers; fabricated metal products with 25,000 workers; medical equipment & supply with 13,000 workers; aerospace products & parts with 11,000 workers; and machinery with 10,000 workers.
- Orange County businesses have been very aggressive in **international trade**, utilizing the ports of Long Beach and Los Angeles as well as Los Angeles International and LA/Ontario International airports.
- The **higher education assets** of Orange County are extensive, including the University of California-Irvine (which has a medical school), California State University-Fullerton, Chapman University, and the Southern California College of Optometry. There are also several well-regarded community colleges.
- **Transportation** service in Orange County is well developed. In addition to the freeway system, rail mass transit service is offered by Amtrak and Metrolink and bus service by the Orange County Transit Authority. Commercial air service is offered at Orange County-John Wayne Airport. Rail freight service is provided by BNSF.
- **Quality of life** is a strong point for the County, with nearly 40 miles of coast line and three small craft harbors. The mountains on the east side of the County offer outdoor recreational opportunities. An array of fine and performing arts venues include the Orange County Performing Arts Center in Costa Mesa, plus professional baseball and ice hockey. The modern theme park was born at Disneyland in Anaheim and a second park, the California Adventure, is located right next door. Knott's Berry Farm and its sibling, Soak City USA also are located in Orange County.

Riverside-San Bernardino Area Profile

- The Riverside-San Bernardino-Ontario Metropolitan Statistical Area is comprised of Riverside and San Bernardino counties and is often called the "**Inland Empire.**" The area is bordered by Los Angeles and Orange counties on the west, and on the east by the states of Nevada and Arizona. Riverside County covers 7,304 square miles, while San Bernardino covers 20,106 square miles. The July 1, 2009 **population** of the two-county area totaled 4,192,000 persons; an increase of 911,000 persons since 2000. Riverside and San Bernardino counties are the 4th and 5th largest by population in California. The area's population count makes it larger than the state of Oregon.
- A quick **demographic profile** of the two counties indicates that 45.7% of the population is Hispanic; 38.8% is white non-Hispanic; 9.6% is black or other races; and 5.9% is Asian-Pacific Islander. As to education, 78% of the two counties' population has a high school diploma or higher, and 19% has a bachelor's degree or higher. (American Community Survey 2008)
- The Inland Empire has a diverse **economic base**. In 2008, the leading industry clusters were: 1.) tourism and hospitality with 160,700 employees; 2.) health services & biomedical with 87,500 employees; 3.) goods movement with 66,600 workers; 4.) wholesale distribution with 59,100 workers; and 5.) professional & business services with 54,900 workers.
- The Inland Empire is also a growing **manufacturing center** with employment at the 106,000 mark as of 2008. The largest industry sectors were: fabricated metal products with 14,200 employees; food, beverages, and tobacco products with 10,500 workers; plastic and rubber products with 10,200 workers; miscellaneous manufacturing with 9,900 workers; and transportation equipment with 8,600 employees.
- **International trade** plays an important role in the Inland Empire's economy. The area is a major transportation hub for both rail and truck service. The LA/Ontario International Airport is a UPS hub, handling small packages and air freight, and for Asian service as well. The area contains many large distribution centers occupied by firms moving goods between Southern California's ports and the rest of the U.S.
- The Inland Empire has an impressive array of **higher education** facilities, including the University of California-Riverside, Cal State-San Bernardino, the University of Redlands, and the Loma Linda School of Medicine. Just to the west of the county line in L.A. are the Claremont Colleges and Cal Poly Pomona. Also, several community colleges are located in the area.
- As noted above, the Inland Empire is a hub for **transportation services** in Southern California. For travelers, there are the LA/Ontario International Airport, strategic freeway access, two rail lines, and passenger service offered by Amtrak and Metrolink (3 lines). In addition, three ex-military air fields are being redeveloped for commercial use: George Air Force Base as the Southern California Logistics Airport; Norton AFB as the San Bernardino International Airport; and March AFB as the March Inland Port.
- The two-county Inland Empire has a diverse portfolio of **quality of life** elements. Resort destinations in the desert feature championship golf courses and tennis tournaments, while those in the mountains offer skiing in the winter and mountain hiking and biking the rest of the year. Several Indian casinos are located in the Coachella Valley. There are several fine and performing arts venues. The California Speedway in Fontana is the largest auto racetrack in Southern California.

San Diego County Profile

- **San Diego County** (San Diego-Carlsbad-San Marcos, CA Metropolitan Statistical Area) covers 4,526 square miles, and had a July 1, 2009 population of 3,208,000; an increase of 372,000 persons since 2000. The County's population is greater than the entire state of Iowa and is the second largest of all California's counties (behind Los Angeles County).
- A quick **demographic profile** of San Diego County indicates that: 30.9% of the population is Hispanic, 50.7% is white non-Hispanic, 10.6% is Asian-Pacific Islander, and 7.8% is black or other races. About 85% of the population has a high school diploma or more, while 34% has a bachelor's degree or more. (American Community Survey 2008)
- There is a diverse **economic base** in San Diego County. In 2008, the leading industry clusters were: 1) tourism & hospitality with 180,200 workers; 2) health services and biomedical with 97,900 workers; 3) professional & business services with 89,000 workers; 4) goods movement with 82,700 workers; and 5) technology with 65,000 workers. The military is also a major force in the County's economy, employing 1.8% of the civilian nonfarm workforce.
- The "**new economy**" of San Diego County is technology driven, and includes biomedical research and development, communications, and computer science. These sectors build on the vibrant technological research capabilities of the County's businesses and UC San Diego.
- San Diego is a large **manufacturing center** in the U.S. The County's 102,300 workers placed it among the top ten U.S. industrial counties in 2008. The largest manufacturing sectors in the County were: computer & electronic products with 17,600 workers and machinery manufacturing with 7,700 workers. San Diego also has the only sizable shipbuilding industry on the West Coast.
- **International trade** is a major component of the area's economy. The San Diego Customs District is a major channel for U.S.-Mexico trade. In 2008, total two-way trade through the customs district reached \$54.0 billion, with Mexico accounting for \$4.5 billion or 82.5% of the total.
- **Tourism** is a major source of income for San Diego County. Besides its own tourist attractions such as the SeaWorld, San Diego Zoo, Wild Animal Park, and Legoland, San Diego also benefits economically from travelers going to and from Mexico. In addition, several cruise ships set sail or make port calls at San Diego.
- **Higher and specialized education** is a strength of San Diego County, with 64 college and university campuses, including the University of California, San Diego (UCSD). San Diego State University and Cal State-San Marcos also make significant contributions to the region.
- **Transportation** service in San Diego County is extensive. The major commercial airport -- San Diego International Airport (a.k.a. Lindbergh Field) -- offers domestic service and international flights to Canada and Mexico. In addition to the area's freeway system, there are heavy passenger rail services including Amtrak, Metrolink (connecting Oceanside with Los Angeles, Orange, Riverside, and San Bernardino counties), and the "Coaster" (between Oceanside and San Diego). The San Diego Trolley (light rail) serves much of the City of San Diego. Rail freight service is provided by BNSF.
- San Diego County is home to several **military bases**, including Camp Pendleton (the U.S. Marines), Miramar (Marine Corps aviation), and several naval stations for ships, submarines, and naval aviation. San Diego is also the home port of the U.S. Third Fleet, which covers the Eastern Pacific Ocean.

- **Quality of life** options are numerous in San Diego County. These range from professional sports to personal recreation at the County's beaches, marinas, and mountain resorts. The 1,200-acre Balboa Park, a large urban park in the heart of San Diego, is home to several museums and the San Diego Zoo. SeaWorld and the San Diego Zoo and Wild Animal Park attract visitors from near and far, and Legoland California is a perennial favorite among children (of all ages). There is a growing array of fine and performing arts activities as well as Indian gaming facilities.

Ventura County Profile

- **Ventura County** (Oxnard-Thousand Oaks-Ventura, CA Metropolitan Statistical Area) covers 2,208 square miles, and had a July 1, 2009 population of 841,000; an increase of 82,300 since 2000. The County's population is nearly as large as that of San Francisco.
- A quick **demographic profile** of Ventura County indicates that 51.2% of the population is white non-Hispanic, 38.0% is Hispanic, 6.5% is Asian-Pacific Islander, and 4.3% is black or other races. About 82% of the population has a high school diploma or more, while nearly 30% has a bachelor's degree or more. (American Community Survey, 2008)
- Ventura has a diverse **economic base**. In 2008, the leading industry clusters were: 1.) tourism and hospitality with 34,600 workers; 2.) health services/bio-medicine with 26,700 workers; 3) agriculture/food products with 19,600 workers; 4.) professional and business services with 15,500 workers; and 5.) wholesale distribution with 14,400 workers.
- There is a significant cluster of **new technology** activities in eastern Ventura County, with a concentration around Camarillo. Bio-med giant Amgen is headquartered in nearby Thousand Oaks.
- Port Hueneme gives an **international trade** component to the County's economy. This is a "break-bulk" facility that handled 23,486 TEUs and 3,571,200 tons of cargo in 2008. The major commodities moving through the port are cars and fruit, especially bananas, and vegetables.
- On the **higher education** front, California Lutheran University, and several community colleges are located in the county. A notable addition is the California State University-Channel Islands, which opened in Camarillo in 2002 and is rapidly expanding its programs.
- Besides Port Hueneme and the freeways, Ventura County has passenger rail **transportation** service by both Amtrak and Metrolink. Commercial air service is available at Santa Barbara to the north.
- **Quality of life** is a strong suit for Ventura County, which has about 40 miles of coastline including two small craft harbors. Inland recreation areas include Lake Casitas, the famed Ojai resort area, plus the Los Padres National Forest. There is still a significant agricultural presence in the County, which provides a pastoral ambiance.

*Note: In 2007 there was a change in the industry classification codes for firms engaged in Internet publishing, broadcasting and web search.

From 1998 to 2006, ISP's, web search and data processing were covered under NAICS code 518 and internet publishing and broadcasting were under NAICS code 516.

In 2007 518 and 516 were consolidated under NAICS code 51913 but firms providing internet access via client supplied telecommunications equipment i.e. telephones or "dial up" were reclassified to NAICS code 51719 "all other telecommunications." Therefore, one cannot directly compare 1998-2006 employment figures with 2007-2008 employment.
